

```
\addplot[draw=none,mark=none,name path=SeqSeqOneUpper,forget plot]
```

- 用于绘制上界，如下图所示：

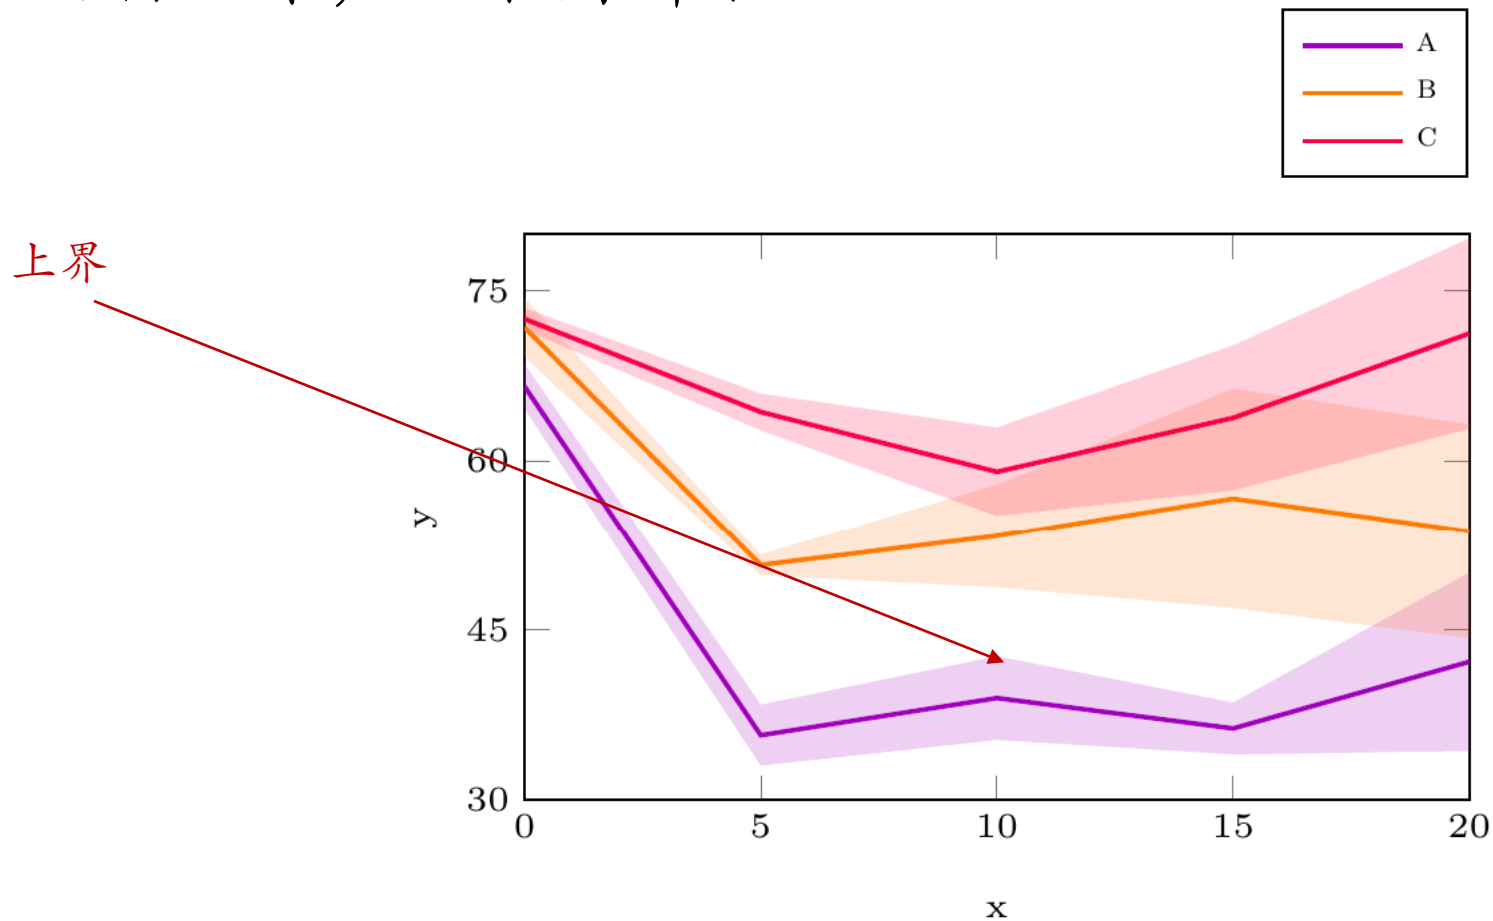

Figure 1: Line chart with error bar

```
\addplot[draw=none,mark=none,name path=SeqSeqOneLower,forget plot]
```

- 用于绘制下界，如下图所示：

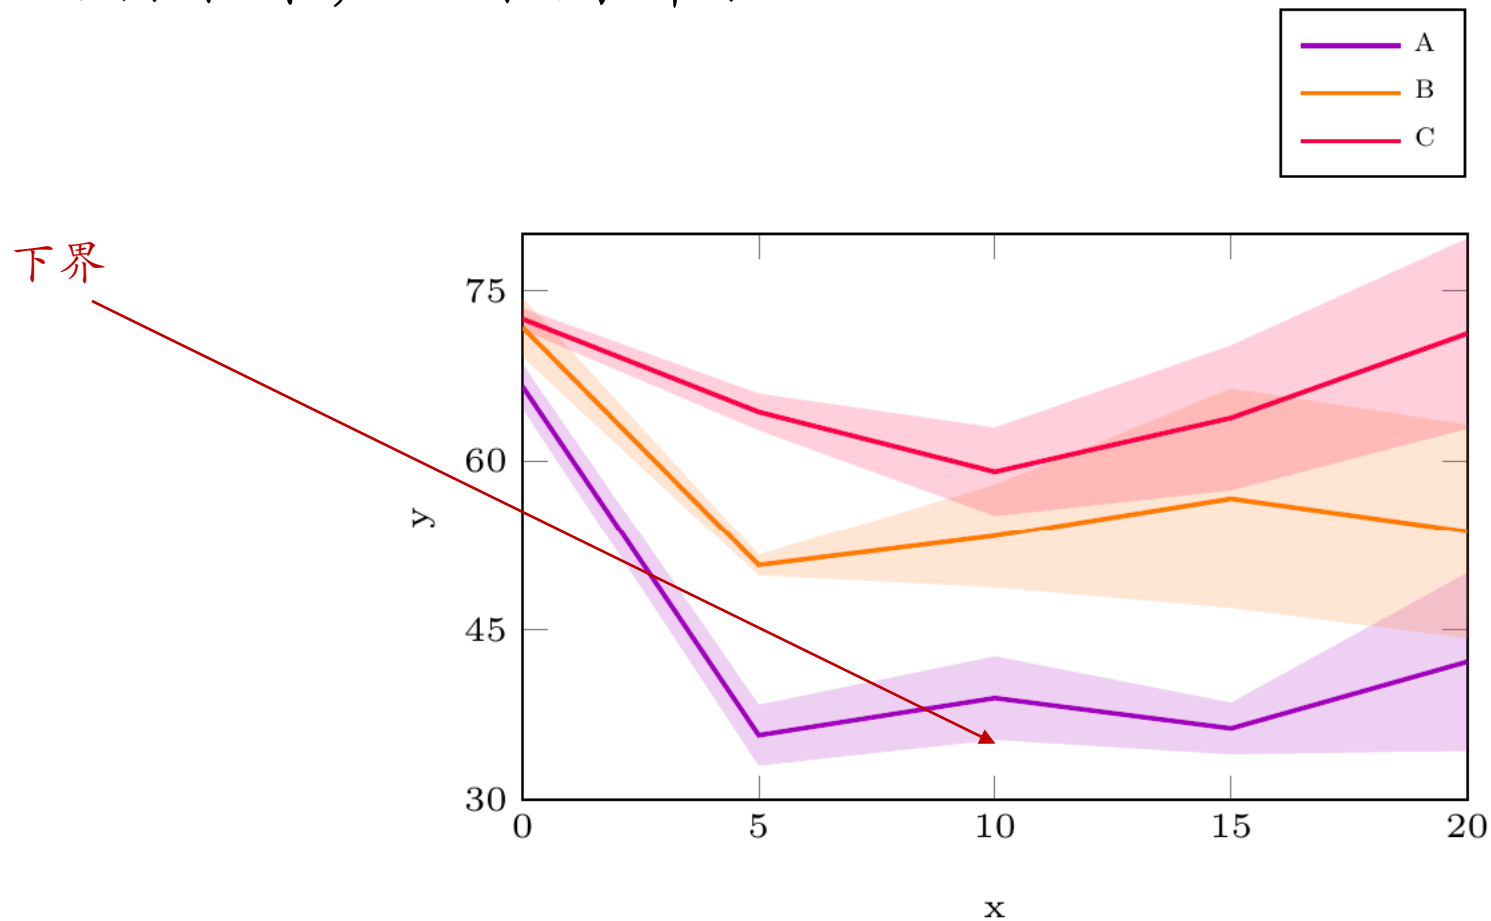

Figure 1: Line chart with error bar

`\addplot [fill=color3,opacity=0.2,forget plot] fill between[of=FullGoldLower and FullGoldUpper]`

- 用于做上界和下界之间的填充，如下图所示：

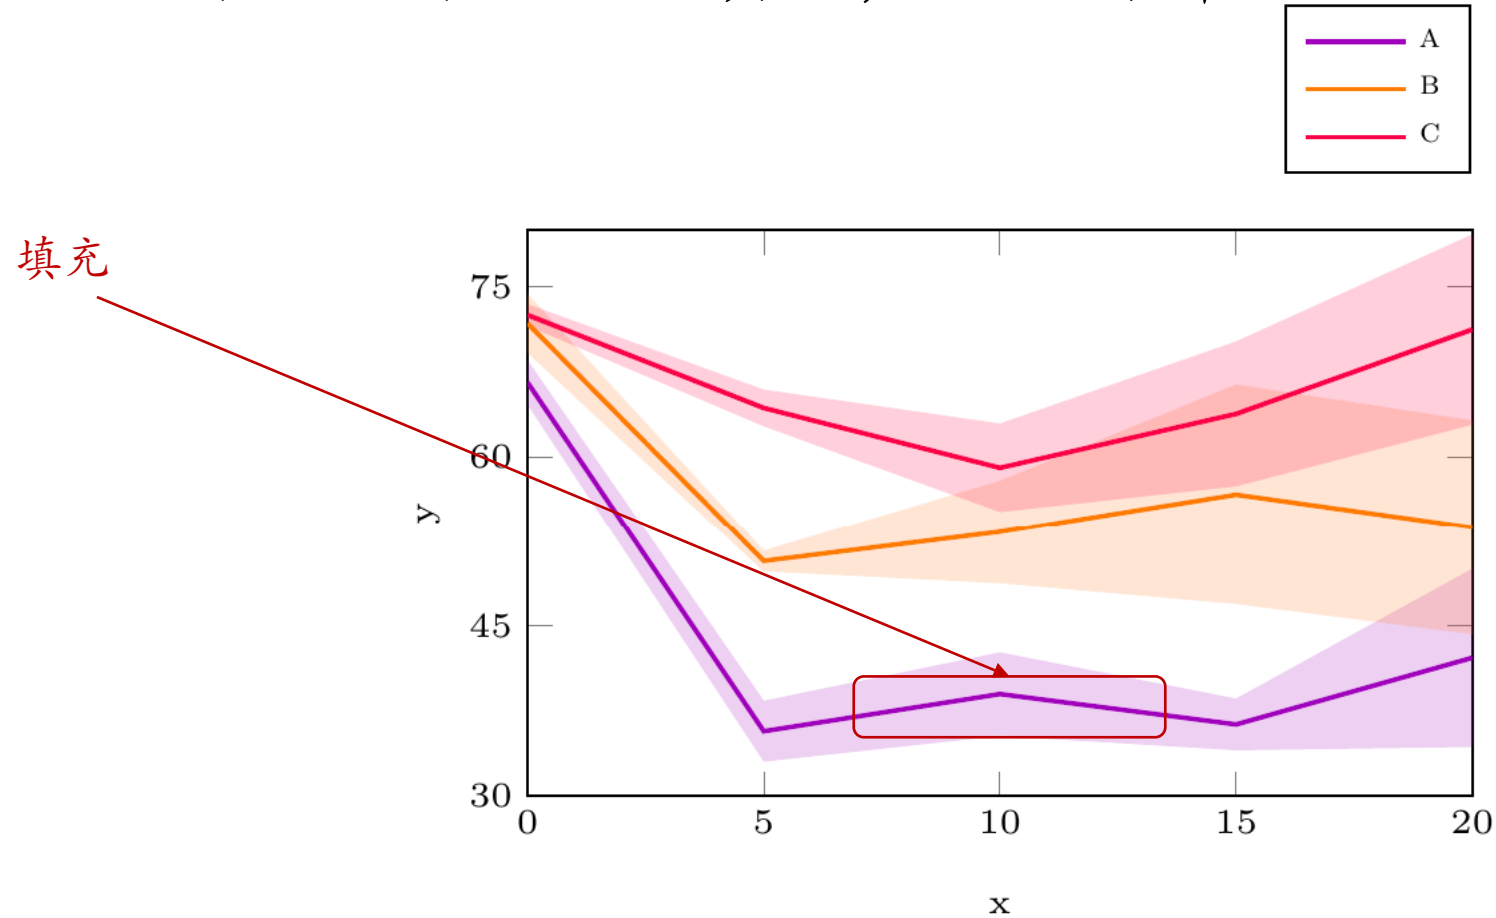

Figure 1: Line chart with error bar

```
\addplot[color=color3,style={ thick}]
```

- 用于绘制折线，如下图所示：

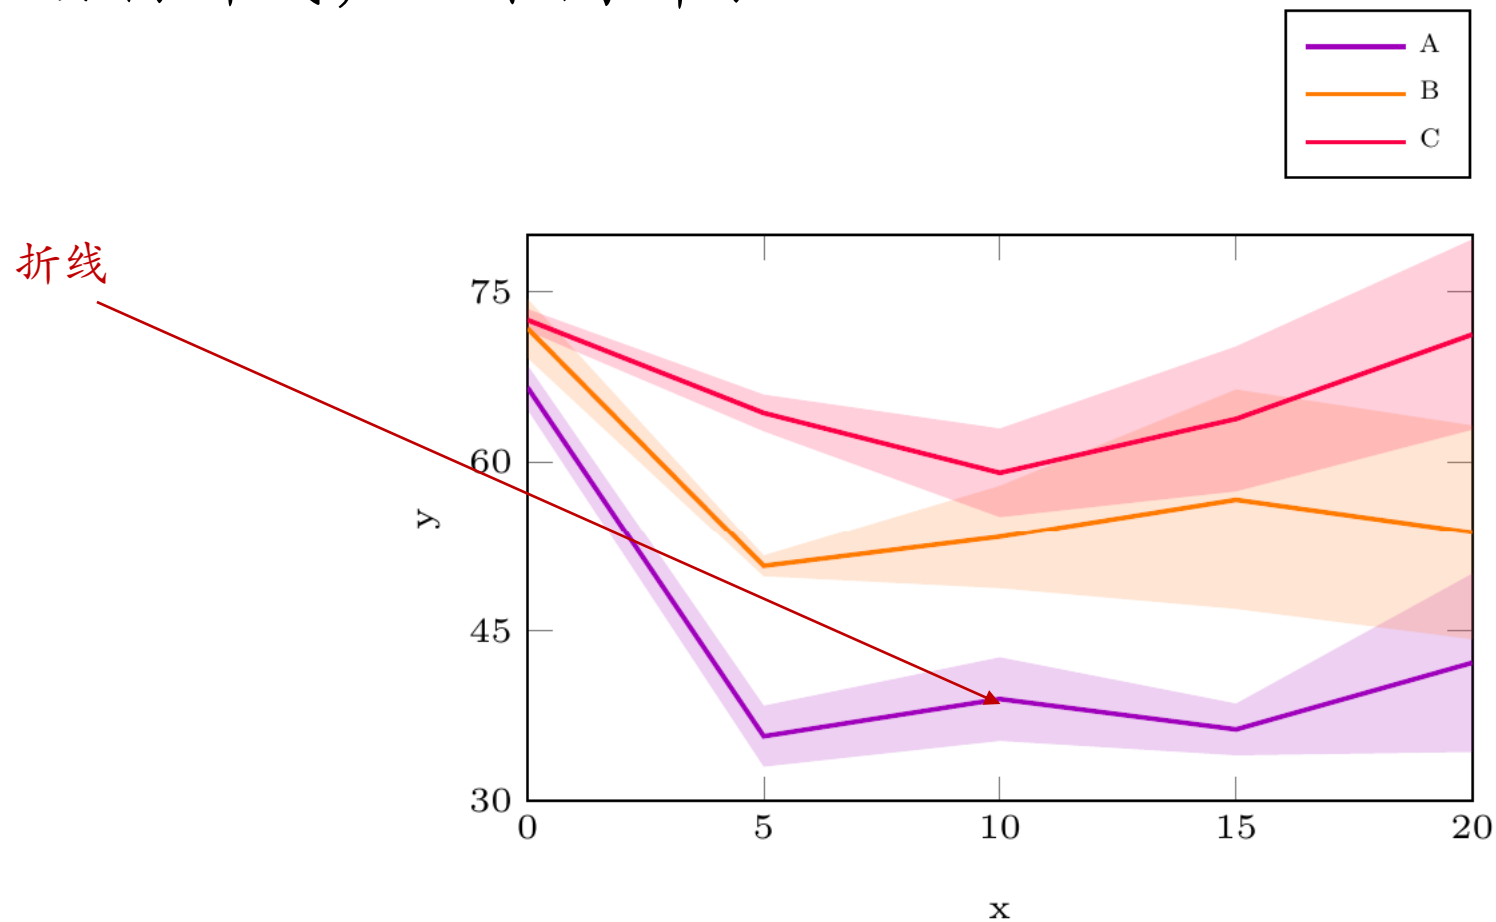

Figure 1: Line chart with error bar
